1. EXECUTIVE MAYOR'S FOREWORD

This draft budget is a culmination of the process of community consultation wherein the strategic IDP document was reviewed. All necessary precaution have been followed that this budget is appropriately aligned to the reviewed IDP. The draft budget aims to satisfy the constitutional obligation of the municipality as contained in Part B of schedule 4 and 5 of ACT 108 OF 1996. The tabling and publication of this draft budget is also aimed at soliciting the public to comment so as to ensure that that the budget truly represents the needs of the community.

The 2017/2018 draft budget has maintained our resolute approach of prioritizing water projects. 47% the total capital budget has allocated for water provision within different areas of the municipality with the main aim of reducing the water infrastructure backlog.

The efforts of the municipality to extract itself from grant dependence will only be achieved if the municipality thoroughly implement all its revenue collection strategies and plans. The budget related policies which are concurrently being tabled with the draft budget gives the municipality the necessary legal standing to enforce the collection of rates and taxes.

Therefore this 2017/2018 draft budget is presented for public comments and inputs.

3. EXECUTIVE SUMMARY

National Treasury issued MFMA circular numbers 85 and 86 to guide the compilation of the 2017/2018 MTREF. The 2017/2018 budget is informed by low revenue base and lack of economic activity which has affected the anticipated revenue collection. The poor revenue collection in the previous financial year has prompted the municipality in doing away with incremental budgeting and to be conservative in applying Zero based budgeting.

It is further critical to give special attention to revenue management, credit control and debt collection to ensure that the municipality's cash flow position is improved in within the short term.

The municipal budget is manly funded through National Government Grants. The purpose of Infrastructure government grants is to deliver on national government priorities relating to service delivery while the main purpose of the equitable share is to fund the provision of free basic services to the poor.

The publishing of the regulation on the municipal standard chart of Accounts (MSCOA) will have a huge impact on the municipality in terms of how budgets is compiled. This is not only financial reform but a business reform as a whole and the largest since the implementation of the MFMA in 2003 and GRAP standards. The MSCOA regulations will apply to all municipalities with effect from 1 July 2017.

In view of the above mentioned, the following table is a consolidated overview of the 2017/18 draft Revenue and Expenditure budget

3.1 DRAFT OPERATING REVENUE

For the municipality to continue improving the quality of services provision to its community it needs to generate the required amount of revenue. In these tough economic times strong revenue management is essential to the financial sustainability of every municipality. The reality is that the municipality is faced with developmental backlogs. The expenditure required to address these challenges will always exceed available funds; hence drastic measures has to be made in relation to tariff increases and balancing expenditures against realistically anticipated revenues.

The following table is a summary of the 2017/18 MTREF (classified by own revenue source):

The total funding or the expected revenue of the draft annual budget is **R 550,345,000** which is **85%** of grants and subsidies and **15%** of own revenue projected.
